

Autumn One in Year 1

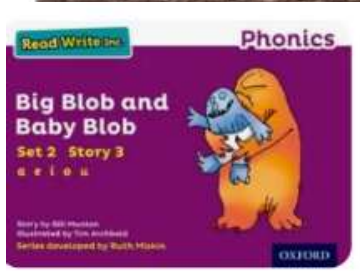

English

The children will complete the place value of punctuation and grammar unit in Autumn 1. Here we will explore nouns and verbs and explore what the subject of a sentence is.

The children will complete a range of activities to enable them to identify the subject and verb, record simple sentences using the subject and verb and explore a range of pronouns.

Phonics

Phonics takes place every day and the children will access the appropriate group.

The children will complete word time where they will learn a new sound and complete daily spellings. The children will receive a new book every week to read at home

Maths

Children will start by exploring place value of numbers up to 10. They will explore different methods for counting and continue to explore mathematical vocabulary like fewer, greater and equal too. The children will begin to look at number lines and be introduced to new equipment that will assist them with maths problems.

Science

In science, children will be learning about animals including humans. We will look at the human body and the senses. We will explore the 6 different groups of animals including mammals, fish and reptiles. We will explore their diets and whether animals are carnivores, herbivores or omnivores.

PSHE

My feelings

The children will identify a range of different emotions. We will explore what makes us feel happy and excited. The children will look at things that make them feel sad, angry or upset. We will explore what we can do when we feel these emotions and things we can do to make us feel calm and relaxed.

PE

Gymnastics:

This term, the children will be learning how to balance, roll, move and jump. They will explore these in lessons before creating their own sequences.

Fitness:

For the children's second lesson of the week, they will be focusing on keeping active. During these lessons the children will also be educated on how to keep fit and look after their body and minds.

Art

During this term's topic, we will be exploring the work of artist 'Zaria Forman' and how she creates her amazing art. The children will use her work to inspire them to create their own sea life pictures.

The children will explore how to create water and waves. They will look at fish patterns and they will create a final piece based under the sea.

Music

As a class, the children will explore a number of different songs to develop their critical thinking. We will be discussing what we like and dislike about the song as well as finding out about the tempo and pitch. As the children develop their confidence, we will even begin to play along to songs with an instrument.

RE

The children will look at Christianity. We will look at the Creation story and how God would want us to treat the earth.

We will make our own creations and think about how we would like people to treat them.

Computing

Online Safety

Year 1 will be learning all about the importance of keeping safe when using the internet and games.

As a class we will be exploring what we should not be sharing with people online and understanding that not everyone is who they say they are.

History

What was life like when our Grandparents were children?

Year 1 will be working towards answering our key question in history lessons. We will be looking into what life was like 50 years ago and trying to understand what has changed.
